

GLOBAL SENSORS NEW ITEM

## Global Sensors Simple and Strong Probe

In our digital age, it is refreshing to see an old design that is still very applicable to our needs...reliable, inexpensive and foolproof. That's our bimetal probe thermometer.

The top facing dial is easy to read with bold numerals and clearly marked temperature lines. The shaft is a robust stainless steel. The sensor is an embedded bimetal coil. No batteries to replace...just read the temperature and that is it.

Global Sensors Bimetal Probe Thermometer  
\$5.25 each.

PS#70

# Global Sensors Bimetal Probe Thermometer

*Celsius and Fahrenheit ranges are shown on the face of the thermometer.*

*All buttons are momentary contact ... just push and release for action.*

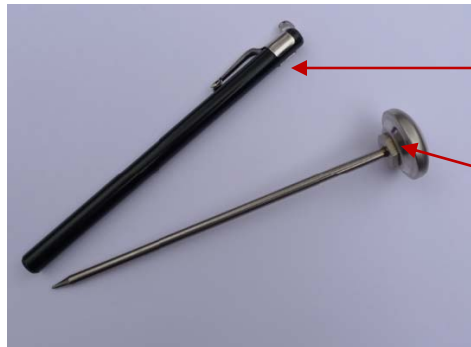

Face magnifies the dial. Easy to read.

Accuracy  $\pm 2^\circ$  F

Probe Shaft is 1/8" 3.2mm in diameter 5" long (50 mm)

All metal parts are Stainless Steel

Handy shirt pocket clip allows the unit to be carried securely. Loop at end is for shaft insertion when being used as a handle.

Shaft is securely threaded onto face.
